Arnold Library Endowment for Digital Access

A GIFT FROM

Edward and Jeanne Arnold

The cost of journal and database subscriptions increases each year at a much higher rate than inflation. Having access to the most current information is essential for science and engineering students, teachers, and researchers; the Hesburgh Libraries must be equipped to move into and provide support for new areas of inquiry as they appear on the cutting edge of learning, teaching, and research that has global impact. The Arnold Endowment ensures that this dynamic growth and achievement can take place at Our Lady’s University.
