The emphasis on science of the Creighton Family Science Library Endowment is making this gift one of great impact for the University and its libraries. As students and faculty in science and engineering seek to improve the human condition through research and discovery in the areas of human health and the environment, the information needs associated with their work grow at an explosive pace.

The Creighton Endowment is assisting the Hesburgh Libraries in supporting these critically important efforts by providing Notre Dame scientists and engineers—including aspiring students—with the appropriate resources, programs, and services in a timely and transparent manner.

James J. Creighton Jr. lives and works in Indianapolis, Indiana. He is a physician and managing partner for The Indiana Hand Center, where he has worked since 1988. Jim is also a clinical assistant professor of orthopaedic surgery at Indiana University School of Medicine. Jim received his bachelor’s degree from Canisius College in Buffalo, New York, and his medical degree and orthopaedic residency training from State University of New York at Buffalo. He is a member of the American Society for Surgery of the Hand and a fellow of the American Academy of Orthopaedic Surgeons. Jim and his wife, Norma, have two children, James (’09) and Andru.
