OpenDOAR

The Directory of Open Access Repositories - OpenDOAR

Search for repositories | Search repository contents | List of repositories | Repository Statistics

OpenDOAR is an authoritative directory of academic open access repositories. Each OpenDOAR repository has been visited by project staff to check the information that is included here. This in-depth approach does not rely on automated analysis and gives a quality-controlled list of repositories.

As well as providing a simple repository list, OpenDOAR allows you search for repositories or search repository contents. Additionally, we provide tools and support to both repository administrators and service providers in sharing best practice and improving the quality of the repository infrastructure. Further explanation of the features is given in a project document Beyond the list.

The current directory lists repositories and allows breakdown and selection by a variety of criteria - see the Find page - which can also be viewed as statistical charts. The underlying database has been designed from the ground up to include in-depth information on each repository that can be used for search, analysis, or underpinning services like text-mining. The OpenDOAR service is being

Repository Resources

http://roar.eprints.org
A new campus service launching in fall 2013 focused on **Curating, Preserving, Linking, and Sharing** scholarly work including datasets, ETD’s, images, and other digitized content

- Central place to archive or link to work
- Integration with personal and shared storage spaces for easy deposit
- DOI minting service
- Share via public, campus, or private searches
When will CurateND support ETD’s?

• Pilots for ETD’s beginning October, 2013
• Some will use current ETD system at http://etd.nd.edu before then
• All existing ETD’s will be migrated to CurateND following pilots
